

# Chapter 13

## Negligible Impairment

### INTRODUCTION

As every accepted condition is to be assessed, Table 13.1 provides a convenient method of rating any accepted condition which causes negligible impairment. Table 13.1 is to be applied only to conditions that cannot be conveniently classified under other chapters of this *Guide* and that would not attract a higher rating if they were classified under such chapters.

### Determine the impairment rating for an accepted condition that causes negligible impairment

Follow the step below to calculate the negligible impairment due to an accepted condition.

**STEP**  
**1**

Determine the rating for negligible impairment from Table 13.1.

### NEGLIGIBLE IMPAIRMENT

#### Impairment Rating

NIL

#### Criteria

- An infectious disease from which the veteran has recovered with negligible after effects.
- An injury from which the veteran has recovered with negligible after effects.
- A condition causing no current impairment.
- A condition from which the veteran has recovered with negligible after effects.

No age adjustment permitted for this table
