

C.N.Os .363-380/56.

RESTRICTED

(FOR OFFICIAL USE ONLY.)

COMMONWEALTH NAVY ORDERS

Navy Office, Melbourne.

17th April, 1956.

The following Orders are promulgated for information,
guidance and necessary action.

By direction of the Naval Board,

Thos. Hawkins

The Flag Officer Commanding H.M.A. Fleet,
Captains and Commanding Officers of
H.M.A. Ships, Officers in Charge of
H.M.A. Naval Establishments, and
others concerned.

N.0204

365.

**RATINGS - PRELIMINARY LOCAL TEST FOR NAVAL AIRMEN -
(PHOTOGRAPHER CATEGORY).**

It has sometimes been difficult to apply the preliminary local test for Naval Airmen (Photographers) because qualified Photographic Officers were not available. In order to standardize these tests and thus provide equal opportunity for all Naval Airmen (Photographers) to qualify, it has been decided that, in future, the preliminary local test for Naval Airmen (Photographers) will consist of a combined theory and practice paper set by the Officer-in-Charge, R.A.N. School of Photography.

2. The paper will be supplied on application by Commanding Officers to the Commanding Officer, R.A.N. Air Station, Nowra. The examination is to be taken at periods coinciding with E.E.T. examinations and the finished papers are to be returned to the Commanding Officer, R.A.N. Air Station, Nowra, for marking. The date of application to take the test will, as at present, provide the basic date on the roster.

(The foregoing is the text of A.F.O. 471/1956, altered to meet R.A.N. conditions.)

(4002/53/83)

366.

WAR SERVICE BENEFITS - KOREA.

Navy Order 492 of 1953, paragraph 5, is to be further amended as follows :-

- (a) by inserting in the third column, opposite H.M.A.S. ARUNTA, the concluding date "27.10.54".
- (b) by adding -

<u>SHIP</u>	<u>COMMENCEMENT</u>	<u>CONCLUSION</u>
"H.M.A.S. SHOALHAVEN	17.7.54	16.3.55
H.M.A.S. CONDAMINE	15.2.55	2.11.55"

(4016/101/9)

SECTION 3 - HULL, MACHINERY, EQUIPMENT AND STORES

367.

SPARE ARMATURES AND FIELD COILS - RETURN OF SEALABLE CONTAINERS.

Much inconvenience is being caused at the R.A.N. Central Machinery and Spares Depot, Sydney, by defective armatures and field coils being returned for repair and reissue without containers.
